Handwritten calculations and diagrams on the page. At the top left, there is a vertical calculation: $33 \overline{) 4644} = 141$. Below it, another calculation: $170.38 \overline{) 29200} = 171.57$. To the right, a calculation: $8.5 \overline{) 141.5} = 16.53$. Further right, $1.24 \overline{) 12.4} = 10$. At the bottom right, a calculation: $170 \overline{) 8100} = 47.64$. The page also contains several geometric diagrams, including a large triangle with a horizontal base of 40.56 and a vertical height of 2.4. Other diagrams show various lines and points labeled with numbers and letters like 'D.C. line', '100', and '14.5'.

100

2000

The image shows a page from a notebook with a grid of 20 columns and 15 rows. The grid is formed by thin black lines. On the left side, there are two circular binder holes. The page is otherwise blank, with some minor smudges and a small mark near the bottom left corner.
