F.B. 2A

Began survey at the S W Cor of Tp or S W Cor of sec 31 I identify the position of Tp Cor from old B T s and start a line due North by sun using a solar instrument I run this random line setting in points at every $\frac{1}{2}$ tally point at the full dist of I fall 1 24 chs East of Cor at the N V Cor of sec 31 I correct back on true line with a bearing of S 00 -53 E. and at

60 60 from the S W Cor I set in stake for S W Cor of th NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ sec 31 Also at

40.40 from the S W Cor. of sec 31 I set in $\frac{1}{4}$ cor as follows -

A stake marked $\frac{1}{4}$ S Fr wh

An alder 18" dia brs S 75 $\frac{1}{2}$ °W 72 lks

A myrtle 5" " N 73°E 25 $\frac{1}{2}$

The line was run carefully The chaining were by inexperienced men, I cannot vouch for exact accuracy of measurement
