In Town. 29 S *Range* 8 W *Sec.* 20	*In Town.* *Range* *Sec.*
Made for Wm. M. Porter, and others	*Made for*
Purpose of to establish the center of the sect	*Purpose of*

TRACING M 1-63 F.N. "L."

At the request of Mr Wm. M. Porter I prepared and sent out legal notices to the following persons owning property adjoining the lines through the center of Section 20 of T 29 S, R 8 W of Willamette Meridian, in Douglas County Oregon: to wit

W. D. Chadwick, Dixonville, Oregon
Mrs Melissa Ttrman, Camas Valley Oregon.
Mrs Wilfred Brown, " " "
B. R. Richter and Co., " " "
J. A. Kirkendall, " " "
Wm. M. Porter " " "
Mrs Eliza Brown, " " "
T. B. Kinnicutt, Canyonville, Oregon
Zack Murray Camas Valley, Oregon
A. H. Krogel Lester Washington
Mrs O. R. Amstein, Camas Valley, Oregon.

All notices sent to the above listed persons were sent by registered letter with return receipts requested. All except that notice mailed to T. B. Kinnicutt were received by them and receipted for. The notice to Mr Kinnicutt was sent to the address given on the Douglas County Tax rolls but was returned stamped "unknown."

Owing to the haziness of certain deeds in the records and O. B. Murray of Bridge Oregon and the heirs of Peter Burch were not notified. O. B. Murray was on the line during the progress of the survey on Jan. 2 1928.

W. S. Crear and C. Mc Cann served as chainmen and took the neccessary oath that they would and did faithfully and impartially fullfil the duties of chainmen.

This survey was commenced on December 13 1927 the date given in the notices butwas discontinued on December 15 pending a decission from the Public Survey Office at Portland Oregon relative to the establishment of section corners from ties given in the original field notes to Donation Land Corners.

The survey was resumed on January 2nd 1928 and carried to its completion on January 5th 1928.

The instrument used was a Buff Transit No. . The Chain was a new Chicago five chain Tape. The lines were run as traverses and the position of all corners computed by Latitudes and departures. All angles were doubled and computations checked. A solar observation was made on the first day of the survey and all angles refered accordingly . The magnetic variation was found to be 21½ ° East. Field Notes and computations will be found in vault No. 1 Envelope No. 28---

On account of the ¼ section corner on the west side of Section 20 having disappeared and all traces obliterated in the 70 odd years since the original survey wes made it was neccessary
