Made for	*Made for*
Purpose of	*Purpose of*

At the request of Vernon Poole I renewed the interior "L" corner of the Jacob Amsler Donation and claim from one original BT which was down and rotting. The new corner is described on the attached map.

Owing to weather conditions I was unable to take a sun observation so used an assumed magentic bearing with a variation of 21° East. All angles were read to one minute and doubled. On closing an error of 1 minute was found. The chaining was done with a 5 chain tape slope distances and angles being read when neccessary. Chaining was good.

Field notes and computations are filed in drawer 37 folder 18 as is the deed descriptions neccessary to correct the ownership of all lands involved. Original tracing is filed _____ The attached blueprint shows the lines as found on the ground and lists and describes all corners set or used on the job. It froms a part of this record.

Ben. B. Irving
Deputy County Surveyor.
