*File 39/58*

(See Attached Map)

The survey was made according to existing property lines which had been in place and accepted by interested property owners for more than 25 years. The two lots were found to be short 7 ft. North and South which discrepancy was prorated.

Monuments were placed at all corners as indicated on the attached map, together with all bearings and distances of resultant lines.

All angles were measured and turned with a transit and distance measured with a steel tape, 300 ft.
