NARRATIVE :

The purpose of this survey is to make a boundary line adjustment between those properties described in the Douglas County Deed Records , Book 1059, Page 605 (hereafter referred to as Unit 1) and Book 1267, Page 236 (hereafter referred to as Unit 2) as well as to partition Unit 1 into three pieces.
The found 5/8" iron rod at the Southwest Corner of Unit 1 was held for nothing but was pushed westerly, parallel to the South line of D.L.C. 46 , to intersect the easterly right-of-way of Olalla Road (County Road 38) as shown on Land Partition 1992-0035 in the Douglas County Survey Records after rotating said Land Partition to fit points tied. Westerly boundary Unit 1 per same Land Partition 1992-0035 with monument being set at Point of Tangency and then at such point as to give deed distance across property of 325.00 feet. From this Northwest Corner of Unit 1, the northerly line was run parallel to the South line of D.L.C. 46 easterly 1395.89 feet to a set monument then northerly and easterly around adjusted area to the East line of D.L.C 46, this being the Northeast Corner of Unit 1 and between two found monuments. The Southeast Corner of Unit 1 was set at a point that was the intersection of the East line of D.L.C. 46 and an easterly projection from the 5/8" iron rod mentioned above, said 5/8" iron rod also being the Northwest Corner of that land described in Book 1229, Page 741 of the Douglas County Deed Records per C.S File Number 58/212-1 of the Douglas County Surveyors Records ,said easterly projection being parallel to the South line of D.L.C. 46. There should have been a monument at this location per said C.S. 58\212-1 but the 1/2" iron rod was found to be out of position over 11 feet as shown in Detail " D".
The westerly boundary of Unit 2 was run record per rotated Land Partition 1992-0035 as mentioned above, northerly from the Northwest Corner of Unit 1 to it's intersection with Berry Creek with a reference monument being set southeasterly along right-of-way from said point of intersection 30.00 feet. The North line of Unit 2 follows the centerline of Berry Creek to it's intersection with Olalla Creek , then northerly along the centerline of Olalla Creek to the South line of that property described in Book 955, Page 196., then easterly , parallel to the South line of D.L.C. 46, to a point on the East line of D.L.C. 46.
The Southwest Corner of Lot 72, Byron Creek Estates was computed at proportioned distance between found monuments used for Base of Bearing.
