Map File M 1-68

SECTION 10 , TOWNSHIP 21 SOUTH , RANGE 7 WEST. W.M. DOUGLAS COUNTY , OREGON.
Scale 1 inch 400 feet. July 27, 1955.

The purpose of this survey was to set the center of section 10, and to mark the south & west lines of the northeast one quarter.

We started at the one quarter section corner for sections 3&10 and ran a transit travers south till we intersected a blazed line. We then went to the corner sections 9,10,15,& 16 and ran a transit travers east, we found no established corner till we got to the one quarter section corner of sections 11 & 14. We then went to the corner of sections 2,3,10,&11 and ran a transit travers south we found no established corners till we got to the corner of sections 14,15,22,&23. From this information we established the corner for sections 10,11,14,&15 and the one quarter section corner for sections 10&11 and calculated the position of the north & south center line.

Then ran a transit line west from the one quarter section corner sections 10&11 to the one quarter section corner sections 9 & 10 and established the center of section 10 at the intersection of the of the north&south and east&west center lines.

Corner markers set on this survey are angle irons 1" - 1" - 36" with a brass cap inscribed WILFORD N. HAINES #239
