Map File M 791-14

N A R R A T I V E

I, traversed between the southwest corner of DLC #41, T.24S. R.6W. W.M., the CE 1/16th corner, C 1/4 corner and the CS 1/16th corner, all in Section 34, T.24S. R.6W. W.M. These corners are all represented as being set per Douglas County Surveyors Office, Map File No. M56-16. As noted on the attached map I used the East/West centerline of Section 34, as my basis of bearings, my distances between the above mentioned corners matches the distances shown on M56-16 within reason. I then subdivided the southwest one quarter of Section 34, using the information shown on M56-16. From this I set the Southwest 1/16th corner and the CW 1/16th corner of Section 34.
