HOWARD W. JOHNSTONE
498

I ran a closed traverse in and around Section 28 for the purpose of monumenting the Roseburg Lumber Company property located in the South 1/2 of the section. I used a Jena 1 second theodolite and a MacI-E EDM. I achieved a precision of 1:21,967 and adjusted the traverse by the Crandall method. I set the corners by standard subdivision procedure based on the location of the existing monuments.
