

Resurvey & Subdivision of NE 1/4 Section 3, T31S, R9W, W.M.

For Roseburg Lumber Company

July 25, 1980

LEGEND

- Monument Found
- Monument Set
- Section or Subdivision Line
- Line Referenced to Aluminum Tags

Scale: 1" = 200'

Bearings based on E 1/2 of Line between Sections 34 & 3. See Ware's Plat of January, 1980 - M 79-18

I ran a closed traverse in the NE 1/4 Section 3, T31S, R9W using a Jena 1 second theodolite and a Mac IE EDM. I achieved a precision of 1:5183 and adjusted the traverse by the Crandall method. I set the CN 1/4 Corner and the N 1/4 Corner 3/2 by proportionate distance between the existing monuments and the NE 1/4 Corner by bearing intersection.
