LEGEND

- ◆ 2-1/2" alum. cap, stamped "PROP. COR., 1986, PLS 1988", set on a 1" x 30" iron pipe this survey.
- ◇ 2-1/2" alum. cap set on a 1" iron pipe, found and used for control (see C.S. 42/388).
- ⊙ 3/4" iron pipe found and used for control (see C.S. 40/409)
- 3/4" iron rod found and used for control (see M II-78), except as noted at W.C. CEI/16 S12
- Calculated corner not set
- () Record course per 1961 survey filed M II-78, in the Douglas Co. Surveyor's Office
- (()) Record course per 1959 survey filed C. S. 40/409, in the Douglas Co. Surveyor's Office
- [] Record course per survey filed C.S. 42/388, in the Douglas Co. Surveyor's Office

SURVEY NARRATIVE

This survey was conducted to establish a property corner for Champion International Corporation, in government lot 8, Section 12, T 27S, R 3 W, W.M.. Basis of bearing was Shrum's 1961 bearing between the W.C. CEI/16 and the S-NEI/64 corners of Sec. 12 (N 0° 05' W) as noted on a 1961 survey filed MII-78.

Controlling corners used were established from three previous surveys as noted in the legend. I use Shrum's 1961 record course from the W.C. CEI/16 (N 0° 05' W, l. 260.67'), to calculate the position for the NEI/16 corner. I also use Shrum's 1961 record bearing and held the record distance on Woodford's 1959 survey (N 89° 28' E, 185.26') to establish the calculated position for a previous property corner. Champion's property corner was then set at the intersection of lines connecting opposite corners, as shown on this plot. All traverses run were closed loops with a minimum error of closure of one part in 25,000. A Topcon GTS-2 was used in the survey.
