Ph. 672-0649

Narrative:

Survey for the purpose of monumenting and checking the corner shown below as "detail". Mr. Young felt that the position of the subject monument had changed from its original position. We found the monument to be out of position as shown in said detail. An iron pipe (approximately 1" in diameter) was found alongside the found 5/8" iron rod, extending approximately 3 feet out of the ground and painted red. Mr. Surkamer, neighbor to the south, stated he set said iron pipe for the purpose of locating subject monument. After setting the subject monument we established two references outlined as follows: set a nail & washer in the easterly base of a 14" maple which bears northwesterly 12.81 feet and set a nail & washer in the west base of a 5" locust which bears northeasterly 9.32 feet from said set monument.

Field crew: Romey Ware and Mike Radcliffe. Equipment was a Wild T-16 theodolite mounted with a Nikon ND160 E.D.M.

Office computations and drafting by Mike Radcliffe.

Surveys of Record: C.S. 58/114, M26-62, M26-70, & M73-68.
