Logging road (not in use)	-----
Stream, intermittent	~~~~~

NARRATIVE

The survey was accomplished for the purpose of setting the center 1/4 section corner and marking the property lines of the NE 1/4 section of Section 30. The property is timbered and the owner, Superior Lumber Co., will harvest it shortly. There were no surveys of record within Section 30, but surveyor R. Stutzner surveyed the east line of Section 30 in 1977 and re-established the east 1/4 section corner. (See Douglas County Surveyor Map File M64-3.) This field survey was accomplished in late June & early July, 1993, using a Jena 0°00'01" theodolite and a Mac II electronic distance meter. For corner description notes see County Surveyor CS File 63/153.
