

NARRATIVE

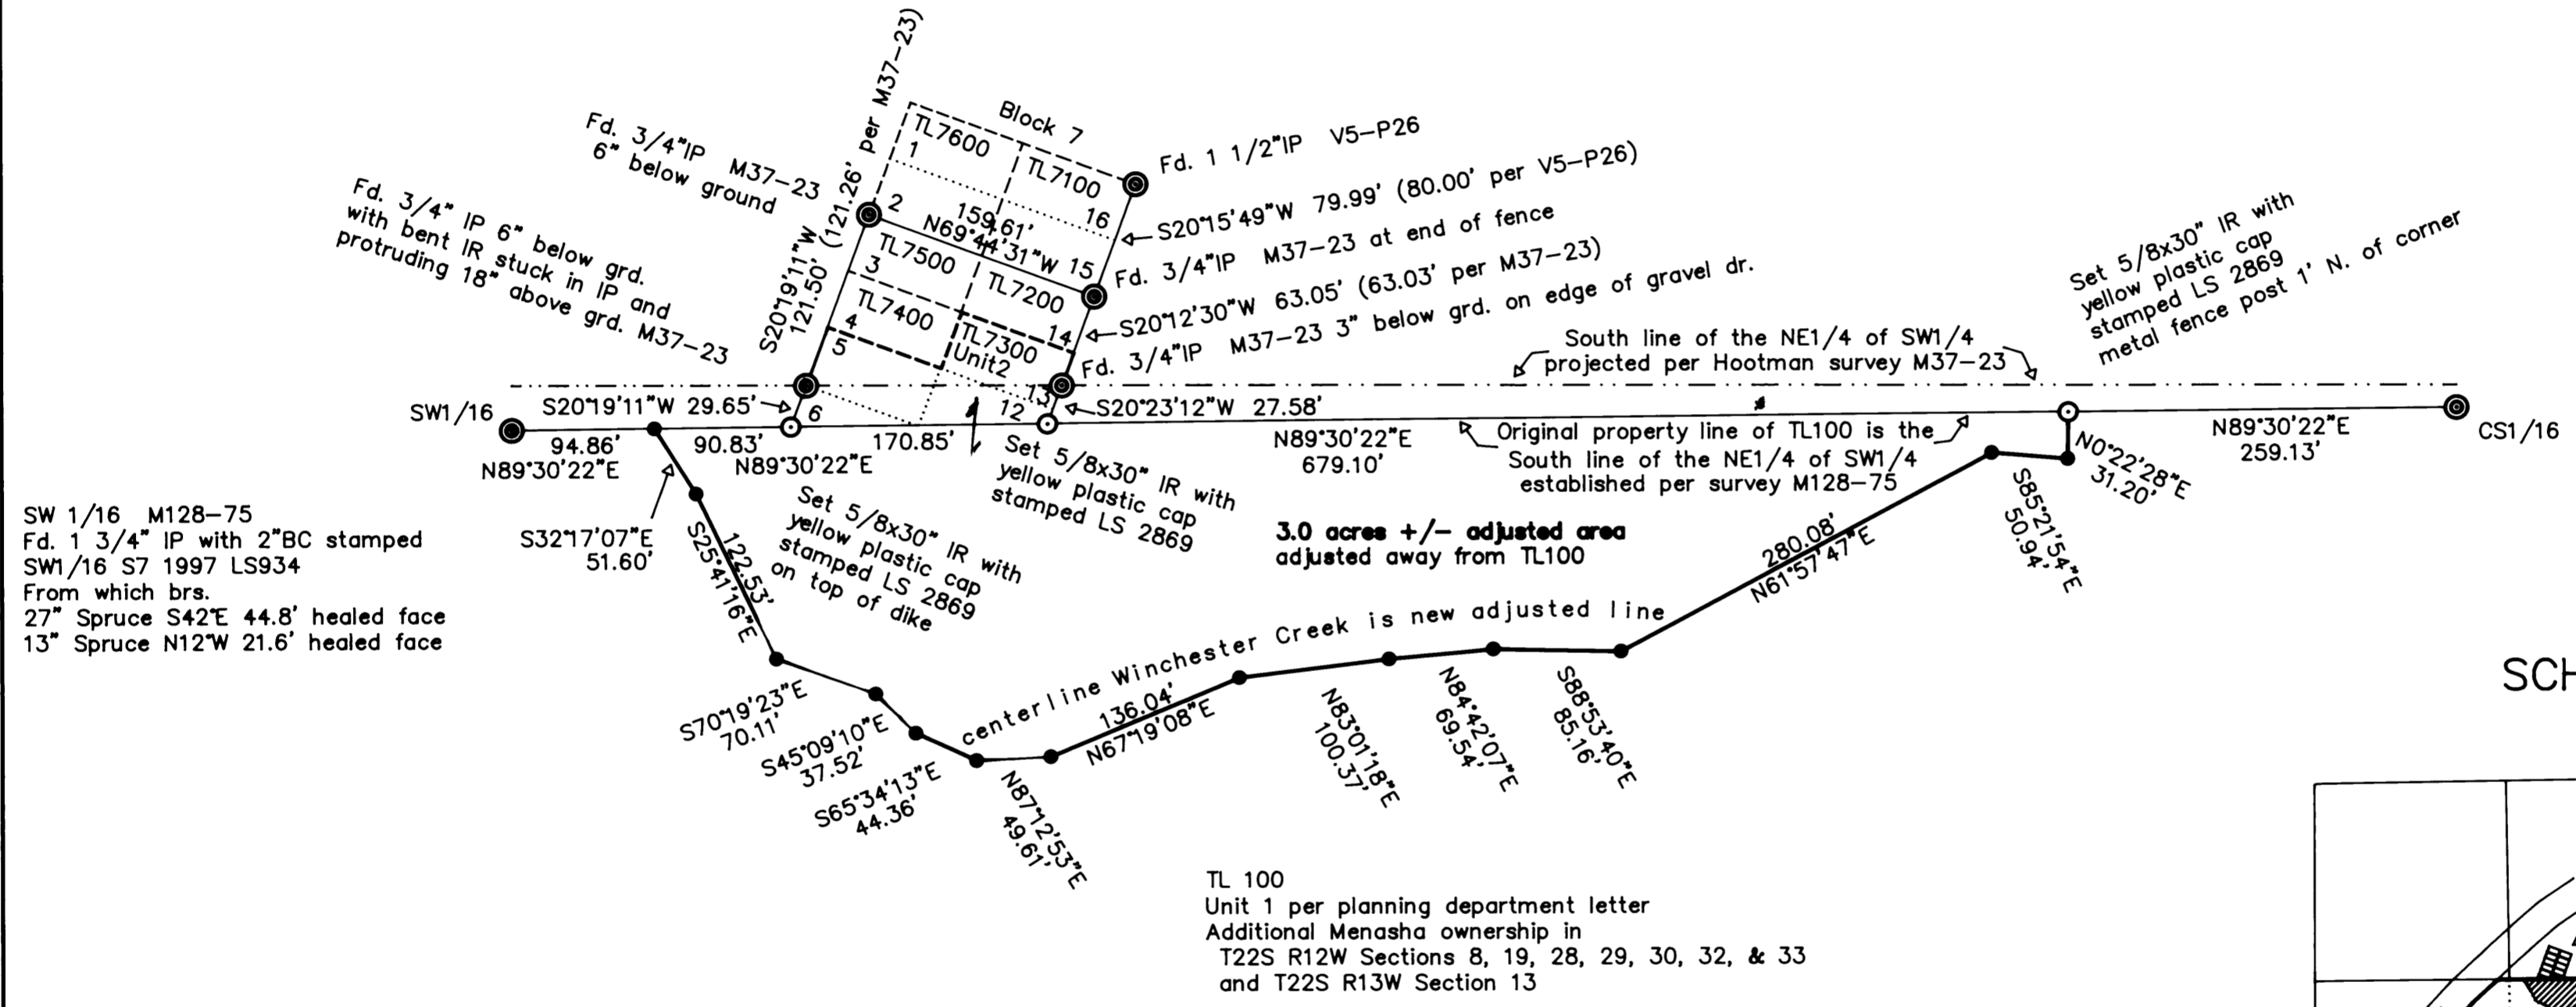

The purpose of this survey was to perform a lot line adjustment between tax lot 100 in Section 7, T.22S., R.12W., W.M. property ID#R49901 and tax lot 7300 in Section 7CA, T.22S., R.12W., W.M. property ID#R65612 for Menasha Forest Products Corporation and Daniel and Barbara Campbell. The controlling surveys were a 1915 Winchester Bay Townsite Plat by E.L. Robinson (Vol.5 P26), a 1969 lot survey by Warren Hootman (M37-23) and a 1998 partial section subdivision by Victor McLind (M128-75).

The South line of the NE 1/4 of the SW 1/4 as established by survey M128-75 falls southerly of the position shown on the Robinson townsite plat and as monumented on the Hootman survey M37-23. This survey makes no determination of ownership of a possible gap between these lines and only monuments the area to be adjusted out of tax lot 100.

Using the found monuments as show on the face of this plat, the East and West lines of Block 7 were extended to intersect the South line of the NE1/4 of the SW1/4, Section 7, T.22S., R.12W. as established in survey M128-75. The centerline of Winchester Creek forms the major portion of the new boundary between the two properties. The area of this adjustment is 3.0+/- acres.

Equipment used to perform this survey was a Nikon 530 Total Station with an HP48GX data collector. Basis of bearing for this survey is the line between the SW1/16 and CS 1/16 corners of Section 7, T.22S., R.12W., W.M.
